

# THE NEXT GENERATION IN DIGITAL DRUMS!

## More expression, bigger impression.

DD-10's dual triggers offer rim shots on the snare and bell or edge play on the cymbals. The new softouch<sup>®</sup> polymer drum pads deliver a more accurate and realistic feel. Finally, the cymbal choke sensors offer quick hand mute.

The DD-10 comes as displayed. Necessary setup tools are included. Just set it up using the step-by-step guide, plug in and take off!
